

**Dear Expectant Parent Letter:**

Hi! We are Matt and Sarah and have quite the whirlwind love story. We were instantly drawn to each other and moved fast. It really was love at first sight. We were married just 3 months after we met. This year we celebrated 11 years together and fall more in love each day! We always knew we wanted kids. Early on, when we found out we would not be able to get pregnant, we chose not to seek out any medical treatments and eagerly pursued adoption. We were blessed to become parents to our daughter in 2012 and our son in 2016. Both our kids joined our family right around the holidays and they were truly an unimaginable gift! We have open and wonderful relationships with both of their moms. We are praying for another open adoption. We understand the importance of a biological connection, and it is our hope that our children will have some level of connection to their biological family throughout their lives. We feel that a relationship to their birth family is the best gift we can give them. Thank you so much for taking the time to read about our family. We want you to know that we will continue to pray for you and your baby. We pray you feel God's presence in your life and are surrounded by love.
