

Dear Expectant Parent,

We're so glad you're taking the time to learn about our family!

First and foremost, thank you! We admire you for making the decision that so many others would not have the courage to make. Your decision to pursue an adoption plan is going to have a positive impact on so many lives. If you make us part of your plans, we will forever be grateful and speak of your bravery, selflessness, and love for your child.

As a family who so desperately is wanting and ready to be parents, you are filling a void in our lives for which we can never thank you enough. Due to infertility issues, biological children aren't in God's plan for us, but we are so excited to adopt and promise to dedicate our lives to loving your child and providing the best possible life we can for him or her. Although we do not know you yet, we have been praying for your child for years. We believe that God's plan is perfect and ultimately He will lead us to the child that we are meant to have.

If you choose to place your child with us, we promise to work with you to come to a healthy and positive level of openness where everyone involved benefits and is comfortable. We have so much love to share, and we hope this provides you with a glimpse into our lives. We look forward to hopefully meeting you in the future and know you are in our prayers!

All the best,

Blake and Kasey
