

Dear Expectant Parent(s):

Thank you so much for taking the time to read our profile and for considering us as adoptive parents for your little one.

We plan to tell our child about the adoption from the beginning. We want him or her to know about their origins and will always encourage them to respect and cherish their history. We are open to building an ongoing relationship with you through letters, updates, photos, or whatever is in the child's best interests. If our child comes from a culture or background different from ours, we will make sure that we continue to educate ourselves to ensure the child remains deeply connected to their roots. We are blessed to have a diverse group of friends, co-workers, and other members of our support group as well as endless opportunities through community, traditions, and exposure which we will use to the best of our ability so that their identity is never lost, only strengthened.

We promise that they will be loved and know that they are loved by us, their community, and by you. We are both excited to share our passions, adventures, opportunities, and everything else the world has to offer with them.

With Deepest Gratitude,

Ryan and Nicole
