

Dear Expectant Parents,

Hello! We are Tiffany and Randy. Thank you for giving us a chance to tell you about ourselves.

We met at college in 2013. We were 18 and 19 and neither of us had been in a relationship. So, we stayed friends for a while. After a few months, we got the courage to be a couple and we haven't looked back since! We got engaged in 2023 and married in 2024. You read that right. We were together 10 years before getting engaged and married. We wanted to finish school and start our careers before getting married. We do not have any children together, but are ready to expand our hearts and start our family.

We may not have a family of our own yet, but we have so much love in our hearts. This is because we both come from large extended families and close knit immediate families. Tiffany has two younger brothers and Randy has a younger sister. Together, we have over 30 cousins and several aunts and uncles. We have one biological nephew, Silas. He is the life of the party and will be going to school soon. He gets to visit us for a week in the summer and we go on lots of adventures. He loves his week with Aunt Tippy and Uncle Randy. Both of our parents are still married and alive. Tiffany's parents have been together over 30 years and Randy's parents have been together almost 40 years! We each also have one grandma alive. They love spoiling their grandchildren every opportunity they get. We have so much love because we are given so much love from our families.

The love doesn't stop there! We also have a great group of friends. We both have made great friendships with colleagues at work. Tiffany and Stacey met while they were both teaching kindergarten at the same school. They hit it off right away, especially when they realized their birthdays were a year and one day apart! Mitchel, her husband, is a great guy as well! Mitchel and Randy also get along really well together. Stacey and Mitchel just had our "nephew" Barrett and have two dogs who love when we visit too. Tiffany also met Sharla

at her current school. They are always visiting each other's houses and doing some type of project together. Sharla's husband, Scott, is a very supportive husband and friend. Randy and Scott get along great and have similar hobbies as well . Sharla and Scott have one daughter named Sami. Sami is almost in high school and has a big heart just like her mom. She is super excited for us to start a family and spoil our children. Randy met Mike through work. Mike and Randy love to go fishing and hunting together. Anything that they can do outside, they will at least try it once! They sometimes bring Mike's son along and Randy is excited to bring his child along on their adventures someday. Mike has been there for Randy at work and in his personal life and is like a second dad.

We both have careers we enjoy. We have our masters degrees and were both able to find jobs in their fields of study. Tiffany is a teacher and Randy is a manger at a pond management company. Tiffany teaches at the local Catholic school where they attend church. When our child is of age, they will be able to attend school with Tiffany and get an education preschool through middle school. Additionally, they will have summers off with Tiffany. Randy's job involves helping people with their ponds. That might be treating for different types of plants, fish surveys, installing fountains, and much more. We both work less than ten minutes from our house. The commute is great especially when it is snowing! With this, the child will be able to be home with either parent the first two months of it's life. When it is time for both of us to be at work, Randy's parents will get to spend time with the child during our working hours.

As you can see, we have big hearts and have a lot of love to give. We also have a big support system who is ready to support us in any way that they can. We have always wanted to adopt our children and are excited to be on this journey.

We have so much love in our hearts and are ready to share that with you and your child. We love the idea of sending you pictures and letters with updates on how they are doing and possible visits when you and the child are ready for it.

We thank you for your time and your openness to getting to know us. We hope you enjoy getting to know us.

With much love,

Tiffany and Randy
