

Dear Expectant Parent,

We can only imagine what you might be going through right now. What we do know is that this decision is very difficult and we truly admire your courage and bravery. Thank you for taking the time to learn a little bit about us.

We want you to know that we are very loving people and wish the best in life for you and your child. Since we started talking about our future together many years ago, we have known we wanted to welcome children into our family through adoption. We have been licensed foster parents since 2018, adoptive parents since 2021, and love having children in our home. We are so excited about the possibility of adding another child to our family. One thing that we have learned through our experience parenting our daughter and our previous foster kiddos is that raising a child takes a village and that family is more important than anything. We would welcome you into our home as part of our family and encourage you to be involved in the child's life as much as possible.

Your child is already so loved. We are honored that you are taking some time to learn about us and hope that you are able to gain insight into our lives, and the love and security that we have to offer.

With love and peace,

Amy, Graham, and Riley
